#### **FOSTER HOMES:**

Top on our list of needs!: Our foster homes provide safe, nurturing places for our dogs and cats and puppies and kittens to stay until they are adopted. (We provide food, crates, bowls, leashes, potty pads, vet care, etc.) Foster families help with obedience training, socialization skills, transportation to adoption events, and help us decide upon the very best forever home for their foster animal. Dogs and cats that are in foster care stand a much better chance of a quicker adoption because they receive the TLC they need to put their best paw forward. **MORE ADOPTIONS = OPEN SPACE FOR NEW RESCUES.**
